# Queen's Chair

Chair of Queen Hetepheres

## Egyptian Chairs

# The Lathe

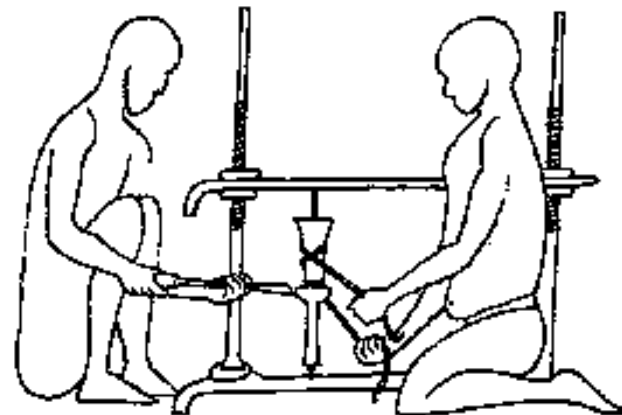

- Mechanism for carving and incising
  - Especially wooden legs on furniture

A “turned” furniture leg.

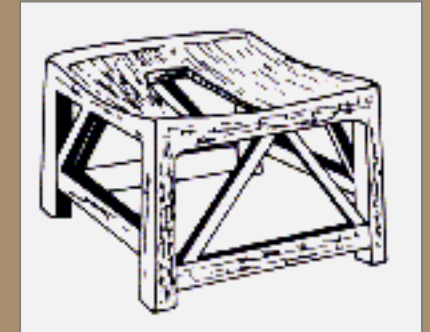

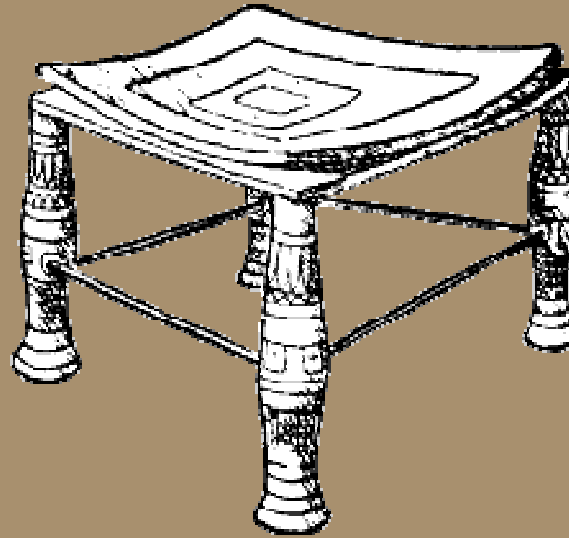

The wood is connected at both ends to a mechanism that makes it turn. The craftsman presses a knife into the wood. As it spins a groove is created.

Egyptian Lathe  
Circa 300 B.C.

# The Stool

- Concave seat typical
- Animal, straight, or “turned” legs

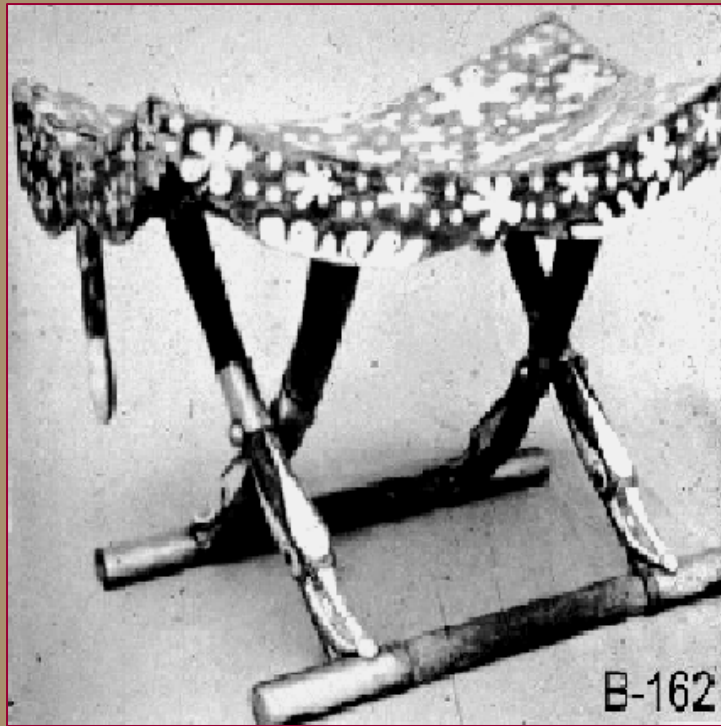

Drawing of a toilet stool from the grave of Kha - Source: T.G.H.James *Pharaohs Volk*

# Stools with Shaped Seats Typical

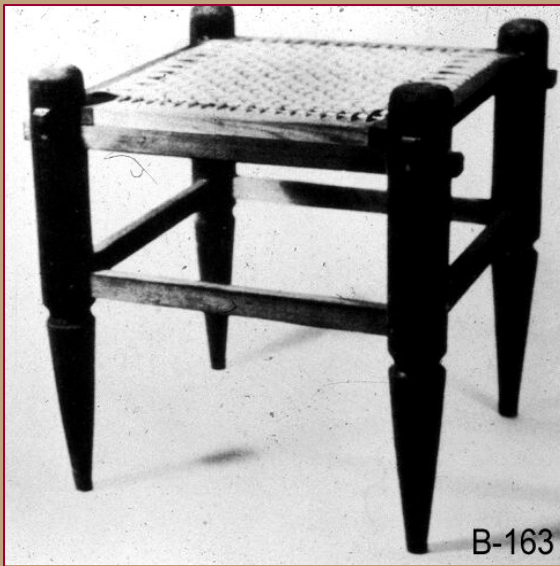

Note leopard spots &  
duck's bill legs

# Stool Variations

# Beds

Footboard

Bed & Headrest

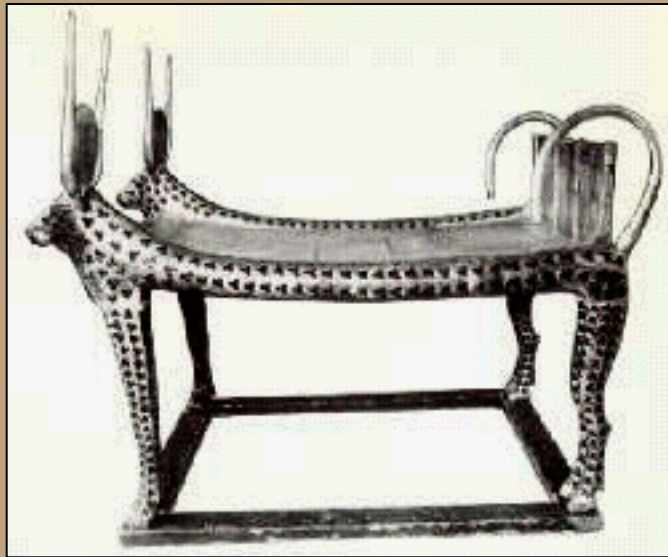

Animal legs

**Footboard only**

◆ **No Headboard**

Linens but no pillow

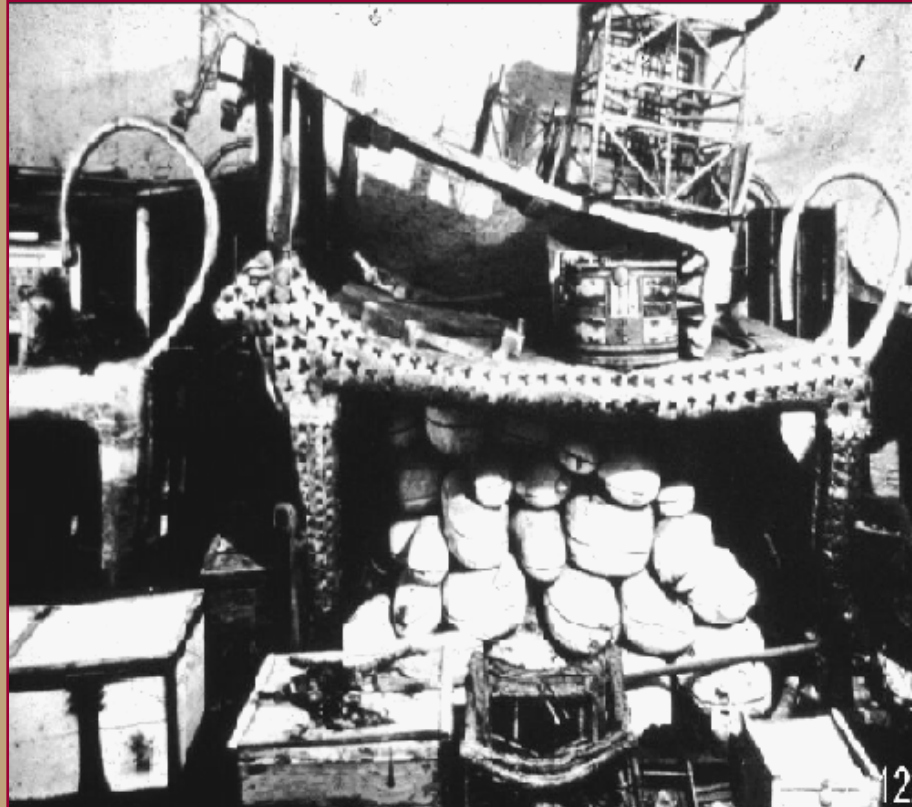

- Headrest

## Beds

# Tomb of King Tutankhamen

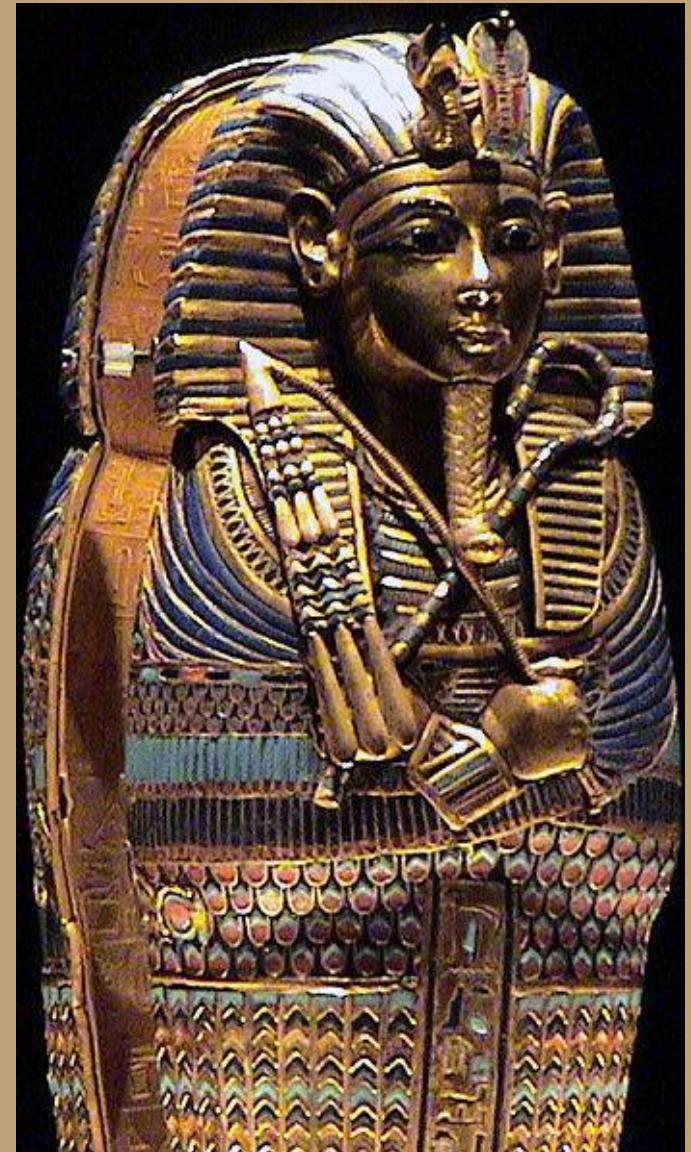

Complete tour of the discovery of King Tut's tomb and it's treasures:  
<http://www.nationalgeographic.com/egypt/>

# King Tutankhamun

These images show two of the a series of four coffins that held Tut's mummy – one inside another.

The beautifully crafted face is a true likeness of King Tut, who died at about 20 years of age. Some believe he was murdered.

Burial  
Mask

Harrods of London

Harrods Department Store in London has an Egyptian theme to reflect the heritage of the owners - the Fayed brothers.

Note lotus blossom lamps and illuminated palmette capitals.

# Harrods of London

This is the view at the top of the escalator.
